Graphic designing Lab paper

Name: Muhammad Amir

Roll No:23

Department: software engineering

Program: computer engineering technology

Subject: Graphic designing

Instructor: Mam Fatima

Q1:

A new student society named "Creative Tech Society" has been launched in the Department of Software Engineering. The society wants to promote its first event, "Design Sprint 2026", where students will learn basic poster designing, logo designing, and branding skills.

The society needs to design:

i. A promotional poster for the event

Apply the concept of Principles and elements of graphic design and make the poster.

Ans:

Tools & Elements Used

- Text Tool: Heading, subheading, event details
- Icons: Laptop, pen, design tools
- Shapes: Circles, background elements
- Color Scheme: Blue, Yellow, White
- Alignment Tools: For proper spacing and layout

Poster preview

Design process

The poster was created using a blank canvas in Canva. A bold title “Design Sprint 2026” was added to grab attention. Event details were placed below the title in a clear format. Relevant icons were used to visually represent design concepts. A consistent blue and yellow color scheme was applied. Proper alignment and spacing were maintained to achieve a clean and professional design.

Q2:

Design a simple and meaningful logo for “Creative Tech Society.”The logo should represent creativity, technology, teamwork, or innovation. It should be suitable for use on posters, certificates, social media pages, and event banners.

Ans: Tools & Elements Used

- Icons: Bulb (creativity), Gear (technology)
- Text Tool: Society name
- Shapes: Circular structure
- Color Scheme: Minimal Blue & Yellow

Logo preview:

Design process

The logo was designed to represent creativity and technology. A bulb icon symbolizes ideas and innovation, while a gear represents technical aspects. These elements were combined in a simple and balanced layout. The text “Creative Tech Society” was added to complete the design. Minimal colors were used to maintain a modern and professional appearance.

Q3:

A startup named “GreenByte Solutions” is launching an awareness campaign titled “Save Energy, Save Future.” The startup wants a poster to promote the

campaign.

Students will design:

A campaign poster

Note: Your campaign design should have a proper structure, clear message, readable text, a suitable green/environmental color scheme, balanced spacing, and professional alignment. The design should use relevant visual elements such as leaves, bulbs, earth, energy icons, or eco-friendly symbols.

Ans:

Tools & Elements Used

- Text Tool: Headings and awareness message
- Icons: Leaf, Earth, Bulb
- Shapes: Layout structure
- Color Scheme: Green (eco-friendly theme)
- Alignment: Balanced spacing

Poster preview:

Design process:

The campaign poster was designed with the theme “Save Energy, Save Future.” A strong heading was used to highlight the message. Eco-friendly icons such as leaves and the earth were added to support the concept. A green color scheme was selected to represent sustainability. The layout was kept simple, clear, and visually appealing.
